

尺寸： 90mm*63mm

Product Presentation:

What's in the box

Specification:

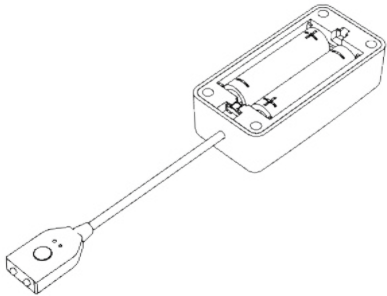

Material: ABS
Protector size: 79mm*38mm*27mm
Sensor cable length: 80cm
Wireless type: WiFi 2.4G Hz 802.11b/g/n
Alarm Sound Output: ≥85 dB (at 10cm)
Work temperature: -10°C~+60°C
Work humidity: ≤90%
Power supply: AA size battery*2
Note: package without battery

Checklist before using the device:

- Your smartphone has connected to a 2.4GHz Wi-Fi network.
- Input the correct Wi-Fi password.
- Your smartphone must be Android 4.4 + or iOS 8.0 +.
- If the numbers of devices connected to the Wi-Fi router reach the limit, you can try to disable device to vacate the channel or try with another Wi-Fi router.

How to Use

Slide to open the back cover of battery compartment, install 2*AA batteries in the right direction of the electrode, the indicator will blink.

(Notes: when the batteries are run out, please choose Alkaline battery instead of Carbon-zinc battery.)

How to Set up

- Use your phone to scan QR code or search "Smart Life" app in Google Play store or APP Store to download and install it.

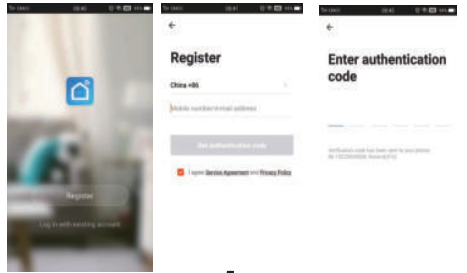

Smart Life

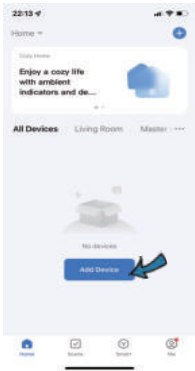

QR Code

- Create an account with your mobile number and enter authentication code.

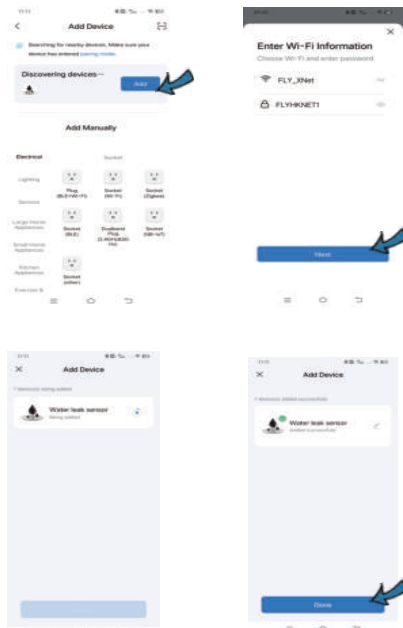

- Connect your mobile to your WiFi router at your home, click "+" at the upper right corner of homepage or click "Add Device".

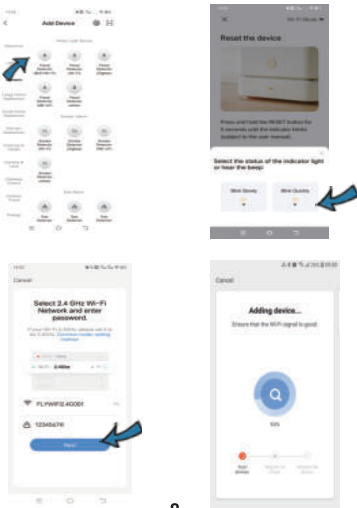

4. 1) Bluetooth Mode:

The app will advise you to turn on the bluetooth on your mobile, then it will search the device. Enter your Wi-Fi name and password, it will connect automatically.

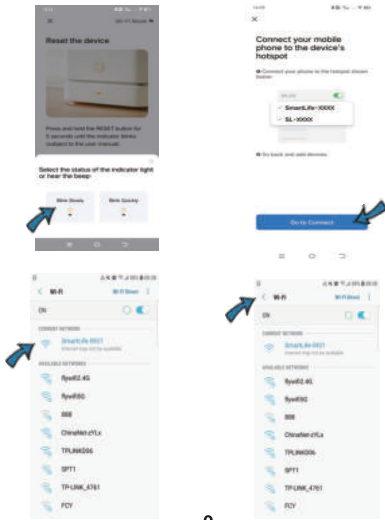

2) Wi-Fi Mode:

Select "Flood Detector (BLE+Wi-Fi)" from "Sensors", select "Blink Quickly", make sure the LED indicator is blinking rapidly, if not, please hold the reset button for about 5s till indicator is blinking rapidly. it will connect automatically.

You can also select "Blink Slowly", make sure LED indicator is blinking slowly, if not, please hold the reset button till indicator blink slowly, connect your mobile to the device's hotspot: "SmartLife-XXXX", click to return to App interface, configuration completed.

Installation

Two ways to mount the sensor:

- Use a clean and dry cloth to clean the wall where you want to mount the sensor. Tear off adhesive tapes to place the sensor and press hard for about 10s to fix them well.

- Or you can fix with screws included.
